

Air 1 is a wonderful radio station that is listener supported, therefore, the listeners depend on the station to be around. It is one of the only Christian radio stations here in the area that play alternative and popular music that is positive. I know that the station has a positive effect on many in the community. There aren't a lot of radio stations that are safe to listen to that offers hope to those who listen. Please don't replace Air 1 with another station under LPFM. Thank you for this consideration.
